Grade Level: 4th		Content Area: Math
Date: 5/13/2020		Teacher: Case
Teacher's email: courtney.case@k12.wv.us		
Another way to contact me is: Class Dojo		
Greetings everyone!		
	-	
I hope you are all staying healthy and safe. If you need help with anything		
please contact me, I'd be more than happy to help! I love and miss you guys		
so much! Use this time to not only keep on learning, but to have some fun as		
well! Have a great week.		
•		
Love,		
Ms. Case		
Today's Lesson:		
Ms. Case needs you to help! She wants to open her own ice cream parlor and		
would like for you to design the dining area where people will eat their		
yummy desserts and the kitchen where they'll be created in! To do this you		
will need to create two rectangular rooms and tell me the area and perimeter		
of each room. You may design the inside anyway you like, but you must		
include your measurements.		
metade your measurements.		
Remember, to find the area of a rectangle you must multiply the length and		
the width (include your unit of measurement) and to find the perimeter you		
must add all sides together. You must create two separate rectangles and they		
cannot have the same measurements. Each rectangle must be unique.		
<u>aamot nave tile same measarements</u> . Laan restangte mast se amquer		
Example (you cannot use the same numbers, you must come up with your		
own)		io namedo, you made come up and you
	12 ft	
10 ft		

Matewan Pk-8

NTI

Area: 12 ft X 10 ft = 120 sq ft (Remember to measure area in square feet)

Perimeter: 12 ft + 10 ft + 12 ft + 10 ft = 44 ft

*Additional programs you can check out to keep yourself learning! (These are optional)
