Date: April 6, 2019

Teacher's email: khuddle@k12.wv.us

Another way to contact me is through Facebook Messenger

Content Area: Math

Teacher: Mrs. Huddle

Note from Teachers

Dear Students,

I hope you are taking care of yourself and adjusting to your homeschooling activities. I know it is difficult to do school work when you are not in school, but it is important to complete the assignments. If you need help, please contact me even it is for an assignment in an other class.

This will be over soon. I truly miss you and can't wait to see your sweet face at school.

**Miss you,
Mrs. Huddle**

Today's Lesson:

Using the food labels on boxes of cereal or other food items, determine the number of calories in multiple servings of that item. How many calories in half a serving, $\frac{1}{4}$ of a serving, etc.? What if you were feeding 20 people? 35 people? Your school?
